DETAILED ACTION

1. The Amendment filed December 12, 2005 has been received and considered.

Drawings

2. The new Figure 1 drawing was received on December 12, 2005. This drawing is objected to by the examiner for the reasons listed below.
3. The newly submitted Figure 1 drawing is objected to as failing to comply with 37 CFR 1.84(p)(5) because it does not include the following reference sign(s) mentioned in the description: element 9, a rear axle, described in paragraph 0026 third to last line, element 10, a control system, described in paragraph 0027 line 1, element 28, a cable, described in paragraph 0030 line 3, element 21, a cable, described in paragraph 0030 line 4, and element 33, a cable, described in paragraph 0036 line 1. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Note: it appears that applicant has merely mistakenly deleted the aforementioned reference numerals from his newly submitted Figure 1 drawing, however, these elements were originally provided in the originally submitted Figure 1 drawing and are disclosed in the specification, and thus must also be present in this new Figure 1 drawing.

Claim Objections

4. Claims 12 and 14 are objected to because of the following informalities: in line 3 of Claim 12 the word "is" should be deleted and in lines 4, 5, and 7^{of Claim 14} the element numeral^{PJR 3/20/06} designation "(4,6)" should read --(6)-- to be consistent with the second auxiliary brake numeral designation (6) used throughout the previous claims and the specification. Appropriate correction is required.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 14-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 14 recites the limitation "the first auxiliary brake" in line 4. There is insufficient antecedent basis for this limitation in the claim.

In lines 6-7 of Claim 14, the term "the respective auxiliary brake" is indefinite. It is unclear which of the auxiliary brakes, either the first or the second auxiliary brake, that applicant is referring to here.

Allowable Subject Matter

7. Claims 1-11 and 13 are allowed.
8. Claim 12 is objected to as outlined above, but would be allowable if rewritten to overcome this objection.
9. Claims 14-20 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
